

GLOSSARY

SIZE

The size always comes in GRS.

At it goes variable , Merluza loin could go from 200 to 250 gr.

GLASEO/GLAZE

Is the percentage of water added to protect the fish in the frozen procedure.

So if it has 20% GLAZE after de-frozen a loin of 200 gr,

the final weight should be 160gr.

FORMAT

Is the way the fish goes packed in cases.

If is 1 x 2 , it means that the fish goes in a box of 2 kgs.

PALET

This information is about how and how many cases go in one pallet.

If it is 13 x 16 it means that the palet allows to storage 13 cases in the base

by 16 cases on the high Total 208 Cases
